

## What kind of designer are you?

QUIZ

TYPES

BOOKS

YOU ARE A:

# Data Driver

**You like helping people work out where they need to go. You can also suggest options and alternatives and work with people to find the best one. Then, you're also great at coming up with lots of ways to get there, and can give clear directions and information to help people recognise when they've reached their destination.**

**M**

MEASURE

## Key traits:

You enjoy exploring lots of ideas

Your work helps to craft the final design

You like to work with others to discuss and refine ideas

You like decisions to be based on data or insight

## Watch out for:

Is it time to stop looking for new ideas and make a decision?

Is there anything else that you could do to build confidence in your work?

Are you giving everyone enough time on their own to think things through?

Have you thought about the things that can't easily be measured?
